## COACHING

Jeremy Weiss grew up in Toronto, Canada where he was introduced to hockey at a young age.

After winning the “AAA” Ontario Championships, he moved to Utah in 9th grade and became the All-time Leader in Career Goals, and Total Points in Utah High School Hockey. As team MVP and leading scorer, he led Timpanogos High School to a State Championship and also won two League MVP awards.

During this time he played four years of Jr. “B” hockey before moving back to Toronto to play two years of Jr. “A” hockey in the Ontario Provincial Junior Hockey League.

Coach Weiss forfeited his last year of Jr. Hockey eligibility in order to serve a full-time mission in Brazil for the LDS church.

In 2004–05, he played collegiate hockey for the BYU IceCats and was the team’s MVP and leading scorer, finishing 9th in the nation in points (ACHA DII). He was also honored as Regional All-Star, and All-American Student Athlete.

## PROGRAM OVERVIEW

The program will consist of 12 one hour training sessions spread over a 6 week period. By training every Monday and Wednesday, players are given the ideal recovery time between sessions. This enables them to sustain a high intensity workout in each and every practice.

**Class size will be limited to no more than 30 players to ensure individual attention is provided.**

## 2010 SUMMER CAMP

The Weiss Tech Hockey Summer Camp provides a comprehensive training program which helps young players to learn Individual Skills, Team Skills, Team Systems, and some aspects of Team Strategy. Each session builds on the skills acquired in earlier sessions. As the weeks progress, the player finds himself developing good habits which become permanent with the upcoming hockey season.

- Individual Skills—Players will be schooled through a carefully designed progression of drills, emphasizing powerskating, edge control, puckhandling, passing, and checking.
- Team Skills—Emphasis will be placed on reading and reacting techniques as well as multiple player timing development.
- Team Systems—Players will be taught the basics of breakout systems, neutral zone transitions, and offensive attack options.
- Team Strategy—Will be touched on lightly throughout the camp.
